Privacy Policy

We created this Privacy Policy (version 01.01.1970-121627700), to declare which information we collect, how we use data and which options the users of our website have, according to the guidelines of the [General Data Protection Regulation \(EU\) 2016/679](#)

Unfortunately, these subjects sound rather technical due to their nature, but we have put much effort into describing the most important things as simply and clearly as possible.

Cookies

Our website uses HTTP-cookies to store user-specific data.

For your better understanding of the following Privacy Policy statement, we will explain to you below what cookies are and why they are in use.

If you want to learn more about cookies and do not mind technical documentation, we recommend <https://tools.ietf.org/html/rfc6265>, the Request for Comments of the Internet Engineering Task Force (IETF) called "HTTP State Management Mechanism".

TLS encryption with https

We use https to transfer information on the internet in a tap-proof manner (data protection through technology design [Article 25 Section 1 GDPR](#)). With the use of TLS (Transport Layer Security), which is an encryption protocol for safe data transfer on the internet, we can ensure the protection of confidential information. You can recognise the use of this safeguarding tool by the little lock-symbol, which is situated in your browser's top left corner, as well as by the use of the letter's https (instead of http) as a part of our web address.
